

YOUTH TOBACCO SURVEY

YTS

WHO?

- Nebraska public school students in grades 9-12

WHAT?

- Offered as a web or paper and pencil survey
- Takes approximately 45 minutes to complete
- Collects information regarding the quantity and frequency of tobacco use (electronic cigarettes, cigarettes, chewing tobacco, cigars, snuff), knowledge and perceptions of tobacco use, etc.

WHEN?

- Conducted in the fall of odd years (late August-December)
- School administrator will pick the week their school administrators

WHY?

- Data generates a state-level report
- Serves as a robust data source for state and local health departments as well as coalitions and agencies working to reduce tobacco use
